03/09/2016		Toyota Motor Sales, USA, Inc.	<b>Manufacturer Service Campaign issued</b> - Campaign #ESS SPECIAL SERVICE CAMPAIGN ESS - REMEDY NOTICE CERTAIN 2004 - 2011 MODEL YEAR TOYOTA SIENNA (2WD) VEHICLES EQUIPPED WITH A SPARE TIRE EXCESSIVE CORROSION OF THE SPARE TIRE CARRIER CABLE - Status: Remedy Available

Locate an authorized Toyota dealer near you to schedule an appointment

 **Learn more about this campaign**

**Description:** Toyota has received reports indicating that some vehicles may experience spare tire carrier or carrier cable corrosion after being inspected and/or repaired as part of a previous Special Service Campaign. During normal usage, water splashing rearward can reach the spare tire carrier due to variation in the placement of the foam splash guard or loss of the splash guard. If the splashed water contains high concentrations of road salt, corrosion of the spare tire carrier and carrier cable may result. In limited instances, the spare tire may become separated from the spare tire carrier and create a road hazard that could cause a vehicle crash. Toyota has revised the inspection and remedy procedures for this Special Service Campaign. All owners of affected vehicles in Warm Climate States are now eligible for an inspection of the spare tire carrier assembly and cable.

**Remedy:** Toyota dealers will be requested to inspect and, if necessary, replace the entire Spare Tire Carrier with an improved one. This replacement will be performed at NO CHARGE to the customer.

10/18/2017 Toyota Motor Sales, USA,  
Inc.

**Manufacturer Safety recall issued**

- NHTSA #17V657
- Recall #H0V SAFETY RECALL H0V - REMEDY NOTICE CERTAIN 2005 - 2007 AND CERTAIN 2009 - 2010 MODEL YEAR SIENNA VEHICLES SHIFT LOCK SOLENOID ASSEMBLY
- Status: Remedy Available

Locate an authorized Toyota dealer near you to schedule an appointment

 **Learn more about this recall**

**Description:** In the involved vehicles, grease inside the shift lever assembly could transfer to other internal components, causing them to function improperly.

This could allow the shift lever to be moved out of the "Park" position without depressing the brake pedal. If this occurs when the parking brake is not engaged, it could lead to a vehicle rollaway and increase the risk of a crash.

**Remedy:** Toyota will send an owner notification by first class mail starting in mid-December, advising owners to make an appointment with their authorized Toyota dealer to have the shift lock solenoid assembly replaced, the grease removed, and the appropriate amount of grease reapplied at NO CHARGE.

## Glossary

### Accident Indicator

CARFAX receives information about accidents in all 50 states, the District of Columbia and Canada.

Not every accident is reported to CARFAX. As details about the accident become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- According to the National Safety Council, Injury Facts, 2021 edition, 5% of the 276 million registered vehicles in the U.S. were involved in an accident in 2019. Over 77% of these were considered minor or moderate.
- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 4/12/24 at 2:48:18 AM (CDT). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

### First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

### Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

### New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

### Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

**Title Issued**

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

**Toyota Recall / Service Campaign**

Portions of this report have been included under license from Toyota Motor North America, Inc. ("TOYOTA"), License Agreement TMS1013 . This data applies only to vehicle marketed or originally sold in Mexico and the United States of America, including Guam, Saipan, American Samoa, Puerto Rico, the U.S. Virgin Islands and the other United States territories and protectorates with currently open safety or emissions recalls, or service campaigns. While TOYOTA provides data to Carfax Inc. on a regular basis, this report may not include very recent activity. For the manufacturer's most current information on recall/campaign activity for any Toyota, Lexus or Scion brand vehicle, you must go to <http://toyota.com/recall> or <http://lexus.com/recall>.
